### LITERARY JOURNALS IN THE UK

A recent request...

*"I'm stuck really on where to send my fictional short stories. There are plenty of American ones but I would like to send them to English women's magazines. Do you know where I may obtain names, guidelines etc.*

*Many thanks..."*

... took a little research for me too. I'm not as familiar with international markets as I am with US publications, but a Google search using the search words "literary journals + Britain" opened up a number of promising websites. Here are a few:

**Stand On** – promoted as one of Britain's foremost literary journals

<http://www.people.vcu.edu/~dlatane/stand.html>

**Ambit** – I liked what I saw on their site.

<http://www.ambitmagazine.co.uk/>

**Arete Magazine** – Liked this one too.

**MsLexia** – For Women Who Write

<http://www.mslexia.co.uk/>

Here's a **portal** with numerous links that may take you to writers guidelines, literary journals and other writing related websites for the UK; I found a number of promising websites on this one including MsLexia above.

<http://www.mywritingworld.org.uk/links.asp>

And finally, a **portal site** that links to dozens of UK literary journals, too.

*(NOTE: my research was limited to a Google search and does not represent an endorsement of these websites or publications.)*
